EXPERIENCE

TheWorkshopInside

Old City, Damascus, Syria — Co-founder — SEPT 2018 - Present

An intersection where sets of ideas could be analyzed, fabricated and presented to an audience, while they enjoy a cup of tea. In hopes of upgrading the current cultural technologies.

ACE Architects and Consulting Engineers

Damascus - Syria — Web Developer & Designer — JUNE 2018 - PRESENT

Upgrading the image of the leading architecture and structural studies office in Syria ACE, through redesigning the office's website, and establishing more consistent presence on the web and social media.

Trust Lines LLC Atlanta, USA — Junior Architect — DEC 2017 - JUNE 2018

In the branch office in Damascus - Syria, the work included creating various concepts and designs for a number of architectural products, ranging from, houses and villas to radio stations and hotels, including interior and exterior design and visualization.

FoundationsOfPause Vancouver, Canada — Character Designer & Animator — APRIL 2016 - OCT 2016

Creating old-fashioned zombie characters in the 400-poly range, in addition to producing the appropriate materials and maps to work together with the overall environment of the game, and simulating movements to represent the tension between zombies and humans. The overall products brought a better representation about the story of the game and made it more visually pleasing.

Local Resident Damascus, Syria — Site Manager — JUNE 2015 - OCT 2015

Coordinating 20 different work professionals (digging, concrete construction, plumbing and electric, finishing) and importing construction materials including: cement, reinforcement steel and floor-ceiling finish materials, to build a one story market place with 6 small shops. This project resulted in further developing the neighborhood's service network.
